How to save for college...without sacrificing your retirement!

1. How can you estimate the amount you should be saving for college, even if you're not sure yet which school your child will be attending?
2. When should you start saving for college for your kid?
3. When should you start saving for retirement?
4. What are some expenses many parents forget to consider when determining the cost of college?
5. What impact has student loan availability has on college tuition costs?
6. How might college funding strategies change at different ages - for example, if kids are in 7th grade vs. 12th?
